KFAST service is Free to eligible customers^^

This system streamlines inventory management, preventing stockouts & ensuring smooth transactions.

Customers can control, review, and approve orders with a glove-friendly, non-touch interface. Fixed contract pricing adds simplicity, while the system enhances inventory control and overall efficiency, freeing up resources for other vital tasks.

How it works:

MONITOR BIN LEVELS

When the front bin is empty, simply scan the QR code located on the back.

MOVE AND PLACE

Place the empty bin on the bottom shelf and bring the full bin forward to the front.

AUTOMATED ORDERING

The QR code links to your account on our platform. Review the request online and send it directly to us for a quick and accurate replenishment.

ORDER IS REPLENISHED

Your order is sent directly to your local Konnect branch, we then deliver to your location.

Why choose K-FAST EVMI?

SEAMLESS INTEGRATION

Easy-to-use system that integrates with your existing processes.

REAL-TIME TRACKING

Track inventory levels and reorder status in real-time.

REDUCED DOWNTIME
