PANEL MOUNTING SOLUTIONS

# The Panel Mounting Solutions Range

## Stratlock

A robust, tool-free panel mounting solution offering hidden fixings, quick installation, 360° adjustment, and high shear strength, ideal for wall and ceiling panels in hotels, hospitals, retail, and residential spaces.

Scan for Video

## Standard

Offering a hidden panel mounting solution with self-tapping, screw, and adhesive fixes, providing pull-out loads of 5-15kg and interchangeable male and female clips, ideal for wall, ceiling, acoustic, prefabricated panels, and seat backs.

Scan for Video

## Very Low Profile

Minimal space between panel and substrate, ideal for thin panels and substrates, offering easy installation with various fixing options and pull-out loads of 5-10kg, including a fire-rated version for applications like thin upholstered plywood, signage, and aluminium honeycomb panels.
